Selectboard Corner

It's a welcome sight to finally see the sugar shacks producing the first product of 2014. Winter is officially over. We ran over budget with winter maintenance, but not by much considering the cold winter we had.

This month we have a few topics that the Planning Board has been working on with outside consultant, Jeff Lacy. On Monday April 7th at 7 PM we are holding an informational meeting for the public regarding changes to our zoning bylaws. On Monday April 21st at 7 PM we will hold a public hearing regarding the same topic to finalize a warrant article for Annual Town Meeting. The Planning Board, along with Jeff Lacy, will be there to explain everything in detail. This is a very important topic, and residents are strongly encouraged to attend as this is a building block for Leyden's future growth and how it will impact us.

The Annual Town Meeting is set for Saturday May 17th, and we're working on a number of things to present. We are continuing our efforts with the Building Needs Study Committee to finalize updates to Town Hall. Estimates are coming in for the work involved. We'll have an informational meeting for the public on Monday May 5th at 7 PM to reveal our warrant for Annual Town Meeting and all the topics and numbers that we have been working on with all the committees. We're not trying to do everything at once, but build on a plan that can take us forward so we continue to strengthen the assets of the town.

—*Respectfully, Jeff, Barbara, Bill*

Robertson Memorial Library

Library Hours: Monday 1:00 – 6:00 PM; Wednesday 1:00 – 6:00 PM, and
Saturday 10:00 AM to NOON Phone 773-9334 (Leave a message any time.)

If you are not able to drive to or from the library but would like to have access to our materials, we will make every effort to help you through a delivery service. Several patrons and I would be more than happy to help you out. We have great books, CDs and DVDs available, so think about it. Don't let travel issues interfere with your using the library! Just call me at 773-9334, and I'll do my best to help you out.

The Massachusetts Museum of Contemporary Art is housed in a converted factory building complex located in North Adams. It is one of the largest centers for contemporary visual art and performing arts in the United States. Several patrons have expressed interest in our investing in a pass to Mass MoCA. For \$150, the library can purchase a full year's pass which would be available to all patrons on a first-come, first-served basis. Merely borrow the pass, use the pass, and return it to the library for the next in line. If you would like to contribute to this, please stop in or send a check. It costs \$15 for one person to visit Mass MoCA. Just think of how much money you could save if you were to visit three or four times this year!

Just a reminder—we are unable to accept your discarded books at the library because space is scarce. You might consider donating books to either the Greenfield or Bernardston libraries for their book sales. Both libraries send us ILL materials, so helping them out indirectly helps the RML. Thanks.

Several Leyden cookbooks and two Library mugs await someone's purchase. With well over a hundred cook books sold, you know it's been a hit. If birthdays or a desire to make someone happy occurs, come in and buy a copy. The mugs are really nice, and once they're gone, that's it—no more will be available.

March is waning; spring is approaching—finally!

Leyden Fire Department Inspections

Fire Departments in Massachusetts are required to conduct inspections as defined in MGL Chapter 148 (State law), 527 CMR (Mass. fire codes), and NFPA 58 (propane tanks). The inspections insure that the Fire Departments have the most up-to-date information to better serve the residents in case of an emergency. The Leyden Fire Department is in the process of conducting inspections to make sure the information is current and accurate. These inspections will occur approximately every five years.

In the case of propane tanks, a permit is applied for by your gas company. The Fire Department receives a copy of the permit. Upon receipt the Fire Department will then call the resident, if the phone number is listed, to set up a time and date for the inspection. The Fire Department inspector will arrive in a Leyden Fire Department vehicle, will knock on the door to let the resident know they are on the property and will provide a Fire Department-issued photo identification upon request. The inspector will go to the tank or tanks to check that all equipment is in date compliance (yes they do expire), is the correct size, the correct distance from windows and doors, that all tanks are level and sturdy. He or she will check for obvious signs of damage, and that the name and contact number of the company on the tank matches the permit. If the Fire Department inspection passed, the resident will be handed a signed permit and an inspection sticker will be placed on the tank(s). If the inspector finds issues, the Fire Department will inform the gas company to make corrections by installing or removing the equipment.

If the Fire Department's inspection request is denied by the homeowner/resident, the gas company may disconnect the service until it is properly inspected. Further, a house cannot be bought or sold until the Fire Department conducts an MGL Chapter 148, Section 26F and 26F½ inspection. Oil burning equipment and wood stoves are subject to 527 CMR inspections as well. All are conducted with similar procedures.

If anyone has questions they can contact the Leyden Fire Department at 413-773-7673 and leave a message.

—Cliff Spatcher, Fire Chief

Leyden United Methodist Church

The Lenten season is the most exciting part of the year for the church as we prepare ourselves for the Risen Christ to come on Easter. In preparation for this glorious day, Christians throughout the world do many things. Some people will fast by not eating something. For example, many Catholics won't eat meat on Fridays, and eat fish instead. Other Christians choose to sacrifice something in their lives that they hold dear like chocolate. This little sacrifice helps remind us of the sacrifice Jesus would ultimately pay on the Cross.

Lent culminates with Holy Week which begins with Palm Sunday on April 13th. We will have worship at 9:00 AM to celebrate Jesus' triumphal entry into Jerusalem. It is an odd way to begin the week, but Palm Sunday has a celebratory feel to it, as we declare Jesus to be our Eternal King. As we continue through the week, we reach Maundy Thursday where we celebrate the Last Supper in a special Communion service at First UMC in Greenfield at 7:00 PM. We arrive at Good Friday in which we honor the sacrifice that Jesus made for us on the cross; the service for this begins at 6:00 PM at the Leyden UMC. It is a somber service as we trace Jesus' steps until his death on the cross. We of course know that this is not the end, and as the sun rises on Sunday morning we celebrate the rising of God's Son. We gather at 6:30 AM behind Town Hall in Leyden. We then gather for a potluck breakfast before our 9:00 AM Easter service. I hope to see you at any or all of these events as we deepen our relationship with God.

—Grace and Peace, Pastor Ken

Easter Egg Hunt

The Easter Egg Hunt will take place Saturday, April 19th at the Leyden United Methodist Church. All Leyden kids up to 6th grade are invited. Each family is asked to bring six colored Easter eggs. We'll meet at the church for some fun and games while the Easter Bunny is hiding the eggs all over on the Town Common. There will be treats and toys from the Easter Bunny as well. This event is co-sponsored by the Leyden United Methodist Church and the Leyden Rifle Club. Call Mary Lou Barton at 773-3548.

WiredWest

Why WiredWest is Asking our Member Towns to Pay a \$1,000 Fee for FY 2015

Since our formation almost three years ago, WiredWest has worked diligently on behalf of our member towns to bring “last mile” fiber-optics broadband to your residents and businesses. We are now at a pivotal point in that project, actively pursuing financing opportunities, and we need your continued support.

We are an all-volunteer organization comprised of a Board of Directors, with one delegate from each town; an Executive Committee of nine members elected from the Board; and many others who have contributed their professional expertise and dedicated effort. Working together, we have leveraged about \$130,000 in grants and donations with volunteer labor to accomplish these essential tasks:

Formation of WiredWest Communications Cooperative Corporation, expansion of our membership from 22 to 42 towns, and adoption of policies and procedures governing our operations; Retention of an Executive Director on a contingent-fee basis tied to the success of WiredWest; Development of a GIS database identifying every single utility pole structure (over 70,000 of them), and road in our territory; High-level engineering and cost estimates for building the last-mile network; Development of a comprehensive and dynamic pro forma financial model for construction and operation of the last-mile network; Research and evaluation of potential financing strategies; Study of the regional economic impact of deploying the last mile; Research on the market for and pricing of broadband services such as internet connectivity, digital phone service and video programming; Acquiring signatures on over 12,600 “Support Cards” of people interested in using such services, and building a database of contact information for future sales and marketing efforts; Ongoing outreach to our delegates, town officials, residents and volunteers; Continuing communication of the WiredWest story through traditional and online media; Advocacy with state and federal officials on broadband issues affecting our member towns.

We estimate the value of volunteer work provided to WiredWest thus far to be more than \$1,000,000. Every month going forward about 500 hours of volunteer labor will be contributed to the project on behalf of our member towns in furtherance of our mission of “bringing broadband home.”

Under the WiredWest bylaws, upon joining the co-op each town paid a one-time membership fee of \$1,000. Those bylaws also provide that the Board may, if it deems necessary, assess on a year-by-year basis an annual fee from each town of up to \$1,000 to provide operating capital for WiredWest. We did not assess such a fee in our first three fiscal years.

However, in December, the Board voted unanimously to assess a fee of \$1,000 for Fiscal Year 2015, beginning July 1, 2014. To keep the project moving forward at this critical time, we require services from legal counsel and other professionals which are vital to the project but for which we must pay. We also have some out-of-pocket expenses, but rest assured that we operate on a very stringent fiscal basis.

WiredWest believes our member towns have received—and will continue to receive—outstanding value for your investment in the initiative. We understand that your town’s budget is tight, but the long-term social and economic benefits of the last-mile network to your town and the region will be significant. Can you imagine a bright future for your town and its citizens without 21st century broadband service?

—Sheila Hourihan

Pearl Rhodes Elementary School Principal's Corner

We are starting a fundraising campaign with Mixed Bag Designs. The purpose of this fundraiser is to raise money for field trips. We'll be offering all kinds of bags: lunch, storage, totes, backpacks, cosmetic, etc. You name it, it will be available. Many of the bags are made with recycled and/or organic materials. Samples will be available at the school to look at. More information and catalogs will be coming home soon.

Please don't forget about our Pennies for Patients program. Shake out that spare change and send it in with your children. All of that money goes towards cancer research. Thanks to all of you who have already donated!
