PRES Hazardous Material Incident

Fire Chief Cliff Spatcher and Brian Pellitier explained the hazardous material incident that occurred at Pearl Rhodes Elementary School. At least eleven people present knew the situation, and no one called 911. That call should have been made and the kids should have been sent home. The protocol for such incidents is posted at the school, and was not followed. Jeff suggested sending a letter to Ruth Miller stating that the Selectboard is concerned about the way the matter was handled. After further discussion, it was determined that hazardous material emergency training should be conducted throughout the school district. Leyden Fire Dept. should get together with Bernardston, Northfield, and Warwick's Fire Departments to create the proper protocol to handle hazardous material emergencies.

Police Dept. Update

Dan reported that he is considering letting Andrew Clark go. He was hired for a probation period and is not working out for the department.
