

LOVING AND MANAGING YOUR FOREST:

A LONG-TERM RELATIONSHIP
THURSDAY, APRIL 9

6:30 – 8 PM !

Via Zoom Webinar - TO REGISTER, VISIT:

https://uso2web.zoom.us/webinar/register/WN_mWZNX-cEQhWggqmBYaaDCg

Please join the Woodlands Partnership of Northwest Massachusetts for the next event in the “How Do Forests Grow?” series! Our guest speaker Ethan Tapper, Vermont forester and award-winning author of “How to Love a Forest,” will share a view of sustainable forest management from his Bear Island Forest where he takes a hands-on approach to stewarding his land. The discussion will include an overview of how forestry has changed from the colonial to

industrial eras and a recent embrace of working with ecological processes while coping with a changing climate. Introduction with Henry Art, Williams College Professor Emeritus.
